GENERAL INSTRUCTIONS

Form N-318 is used to claim the nonrefundable High Technology Business Investment Tax Credit (credit). Authoritative sources of information with respect to the credit are:

- Sections 235-110.9, 235-1, 235-7.3, Hawaii Revised Statutes (HRS);
- Tax Information Release No. 2003-1, RE: Application of Section 235-110.9, Hawaii Revised Statutes (HRS), relating to the High Technology Business Investment Credit; and
- Announcement No 2003-1, RE: New and Revised High Technology Business Investment Tax Credit Forms.

Section 235-110.9, HRS, provides that the credit is available for investments, as defined in section 235-1, HRS, made in taxable years beginning after December 31, 2000 as follows:

- (1) In the year the investment was made, 35% of the investment, up to a maximum credit of \$700,000 per each qualified high technology business (QHTB);
- (2) In the first year following the year in which the investment was made, 25% of the investment, up to a maximum credit of \$500,000 per each QHTB;
- (3) In the second year following the investment, 20% of the investment, up to a maximum credit of \$400,000 per each QHTB;
- (4) In the third year following the investment, 10% of the investment, up to a maximum credit of \$200,000 per each QHTB; and
- (5) In the fourth year following the investment, 10% of the investment, up to a maximum credit of \$200,000 per each QHTB.

Note: Under Act 178, Session Laws of Hawaii (SLH) 1999, and Act 297, SLH 2000, the allowable credit was limited to 10% of the investments made in (a) tax year 1999 (provided that the investments were made after June 30, 1999) and (b) tax year 2000, provided that the credit shall be claimed in the year of the investment and did not exceed \$500,000 per each QHTB. The investments made in tax years 1999 and 2000 are eligible for the credit at the above listed applicable rates, subject to limitations. See specific instructions on Page 4 of Form N-318.

The tax credit may be claimed for income tax, franchise tax (financial institutions), and insurance premium tax purposes for tax years 2001-2005.

For income and franchise tax purposes, the credit is claimed against the tax liability for the taxable year. Tax liability means tax liability reduced by all other credits, **except** for the technology infrastructure renovation tax credit, allowed the taxpayer under chapter 235, HRS, and chapter 241, HRS (if applicable).

To claim the credit for insurance tax purposes, please contact the Department Commerce and Consumer Affairs, Insurance Division.

A taxpayer shall not claim the credit for an investment in a QHTB for the year that it ceases to be a QHTB (i.e., the business fails, terminates, or is dissolved).

If at the close of any taxable year in the five-year period:

- (1) The business no longer qualifies as a QHTB;
- (2) The business or an interest in the business has been sold by the taxpayer investing in the QHTB; or
- (3) The taxpayer has withdrawn the taxpayer's investment wholly or partially from the QHTB;

the credit claimed shall be recaptured. The recapture shall be equal to 10% of the amount of the credit claimed in the preceding two taxable years. The amount of the recaptured credit determined shall be added to the taxpayer's tax liability for the taxable year in which the recapture occurs.

For the purposes of this credit, QHTB is defined as a business employing or owning capital or property, or maintaining an office in Hawaii provided that:

- (1) More than 50% of its total business activities are qualified research; and more than 75% of the qualified research is conducted in Hawaii; or
- (2) More than 75% of its gross income is derived from qualified research; provided that this income is received from:
 - A. Products sold from, manufactured in, or produced in Hawaii; or
 - B. Services performed in Hawaii.

For the purposes of this credit, "*Qualified Research*" is defined in section 235-7.3, HRS, as:

- (1) Research and development work qualifying under section 41(d) of the Internal Revenue Code;
- (2) The development and design of computer software using fourth generation or higher software development tools or native programming languages to design and construct unique and specific code to create applications and design databases for sale or license. See also section 235-1, HRS;
- (3) Biotechnology — fundamental knowledge regarding the function of biological systems from the macro level to the molecular and subatomic levels that has application to development including the development of novel products, services, technologies, and subtechnologies from insights gained from research advances that add to the body of fundamental knowledge. See also section 235-1, HRS;
- (4) Performing arts products;
- (5) Sensor and optic technologies;
- (6) Ocean sciences;
- (7) Astronomy; or
- (8) Nonfossil fuel energy-related technology.

Attachments

The taxpayer must attach to Form N-318: a separate Form N-318A for each investment in a QHTB and all Schedule K-1s which reported the taxpayer's share of the credit.

Deadline for claiming the credit

Claims for the credit, including any amended claims, **must** be filed on or before the end of the twelfth month after the close of the taxpayer's taxable year. Failure to properly claim the credit shall constitute a waiver of the right to claim the credit.

For example, a taxpayer, who files an income tax return for calendar year 2003, must claim the credit by December 31, 2004. The taxpayer uses Form N-318 to claim the credit. The taxpayer attaches to the taxpayer's tax return Forms N-318, N-318A, and Schedule K-1s (if applicable), and all required supporting documents.
